

1 **Amendment to the Claims**

2 **In the Claims:**

3 Please cancel Claims 6 and 14, and amend Claims 1, 5, 8, 11, 12, 13, 15, 16, 18, and 20-22 as
4 follows:

5 1. (Currently Amended) A method for reformatting a previously formatted portion of
6 document text within a document comprising the steps of:

7 determining a sample of formats comprising a plurality of formats from a format set, the
8 format set including ~~a plurality of~~ at least one of font sets and at least one color sets, each font set
9 including a plurality of fonts defining a font theme, and each of the formats from the plurality of
10 formats including a format font name, a format font color, and a format font size;

11 identifying a portion of text within the document to be reformatted; and

12 for each format included in the sample of formats, reformatting the portion of text with the
13 format, and simultaneously displaying ~~live preview text~~ the portion of text reformatted in each of the
14 formats in the sample of formats in a live preview window such that a user is able to visually
15 compare how the live preview text portion of text will appear in each of the formats, ~~the live preview~~
16 ~~text being constrained to a portion of document text disposed immediately adjacent to a cursor~~
17 ~~position in a document.~~

18 2. (Previously Presented) A computer readable medium having stored thereon computer
19 executable instructions for performing the steps of claim 1.

20 3. (Previously Presented) The method of claim 1, further comprising the steps of determining
21 the format set based on user selection of a color set and a font set.

22 4. (Original) The method of claim 3, wherein the color set comprises a plurality of colors
23 defining a color scheme, the colors being pre-selected by a trained designer.

24 5. (Currently Amended) The method of claim 3, wherein ~~the font set comprises a plurality of~~
25 ~~fonts defining a font theme,~~ each font having has a font name and a font size, the fonts being pre-
26 selected by a trained designer.

27 6. (Currently Canceled)

28 7. (Original) The method of claim 1, wherein the live preview window comprises a floating
29 window that hovers above the document.

30 ///

1 8. (Currently Amended) The method of claim 1, further comprising the steps of:
2 receiving a command for adding a custom format to the sample of formats;
3 in response to the command, adding the custom format to the sample of formats;
4 reformatting the portion of live-preview text with the custom format; and
5 displaying the reformatted portion of live-preview text in the live preview window.

6 9. (Original) The method of claim 8, wherein the custom format comprises a user-defined
7 format.

8 10. (Previously Presented) A computer readable medium having stored thereon computer
9 executable instructions for performing the steps of claim 8.

10 11. (Currently Amended) The method of claim 1, ~~further comprising the step of~~ wherein the
11 step of identifying the portion of text within the document to be reformatted comprises the step of
12 identifying the portion of text that is positioned immediately adjacent to a cursor.

13 12. (Currently Amended) The method of claim ~~11~~ 1, wherein the step of identifying the
14 portion of text within the document to be reformatted comprises the step of identifying the portion of
15 text that has been highlighted by a user.

16 13. (Currently Amended) A system for reformatting a previously formatted portion of
17 document text comprising:

18 a display device for displaying the previously formatted portion of document text and a user
19 interface for selection of a selected color set and a selected font set;

20 a memory for storing a plurality of color sets and a plurality of font sets;

21 an input device for generating commands corresponding to selection of the selected color set
22 from the plurality of color sets and the selected font set from the plurality of font sets;

23 a processor in communication with the display device, the memory, and the input device for
24 receiving the commands and determining a format set based on the selected color set and the selected
25 font set; and

26 the processor being further operable for:

27 determining a sample of formats comprising a plurality of formats from the format set,
28 the format set including ~~a plurality of~~ at least one of font sets and at least one color sets, each font set
29 including a plurality of fonts defining a font theme, and each of the formats including a format font
30 name, a format font color, and a format font size;

1 identifying the previously formatted portion of text to be reformatted within the
2 document; and
3 for each format included in the sample of formats, reformatting the previously
4 formatted portion of text with the format and simultaneously displaying the live preview portion of
5 text reformatted in each of the formats in the sample of formats such that the user is able to preview
6 how the portion of text will appear in each of the formats in a live preview window such that a user is
7 able to visually compare how the portion of live preview text will appear in each of the formats, the
8 live preview text being constrained to the portion of document text disposed immediately adjacent to
9 a cursor position in a document without actually applying any of the formats to the portion of text to be
10 reformatted until after the user selects a format to apply after previewing how the portion of text will
11 appear in the live preview window.

12 14. (Currently Canceled)

13 15. (Currently Amended) The system of claim 13, wherein the color set comprises a plurality
14 of colors defining a color scheme, the colors being pre-selected by a trained designer.

15 16. (Currently Amended) The system of claim 13, wherein ~~the font set comprises a plurality~~
16 ~~of fonts defining a font theme~~, each font having has a font name and a font size, the fonts being pre-
17 selected by a trained designer.

18 17. (Original) The system of claim 13, wherein the live preview window comprises a
19 floating window that hovers above the document.

20 18. (Currently Amended) The system of claim 13, wherein the input device generates a
21 further command for adding a custom format to the sample of formats; and
22 wherein the processor is further operable for:

23 in response to the command, adding the custom format to the sample of formats;[[,]] and
24 reformatting the live preview portion of text with the custom format and displaying the
25 reformatted live preview text in the live preview window.

26 19. (Original) The system of claim 18, wherein the custom format comprises a user defined
27 format.

28 20. (Currently Amended) The system of claim 13, wherein the processor is further operable
29 ~~for~~ to identify the portion of text within the document to be reformatted by identifying the portion of
30 text within the document to be that is positioned immediately adjacent to a cursor.

1 21. (Currently Amended) The system of claim 20, wherein the processor identifies the portion of
2 text within the document to be reformatted as by identifying the portion of text that has been highlighted
3 by a user.

4 22. (Currently Amended) A user interface for reformatting a previously formatted portion of
5 document text within a document comprising:

6 a first control for selection of a color set;

7 a second control for selection of a font set; and

8 a live preview window for simultaneously displaying a plurality of live preview text samples,
9 each of the live preview text samples ~~being constrained to a portion of the document text disposed~~
10 ~~immediately adjacent to a cursor position in the document and presenting the section of the previously~~
11 ~~formatted document text in one of a plurality of format sets, at least one of the plurality of format sets~~
12 being including at least a section of the previously formatted document text and presenting the
13 section of the previously formatted document text in at least one of a plurality of formats from a
14 format set, wherein each format set is defined by the a selected color set and the a selected font set,
15 each font set including a plurality of fonts defining a font theme, wherein each of the formats
16 comprises a format font name, a format font color, and a format font size.

17 23. (Original) The user interface of claim 22, further comprising a third control for adding
18 a custom format to the sample of formats; and

19 wherein the live preview window further displays one of the live preview text sample with the
20 custom format.
